**Student Comments**

I almost rated everything as a four instead of a five except for "The course was well planned and organized" just to emphasize how well planned and organized this course is. Brian Lazzaro is literally such an incredible professor. Very complex concept are described through a logic progression from very simple concepts, and it is just such an effective teaching style.

---

Professor was very engaging and passionate about the material. Slides were very clear and informative. Everything we were tested on was thoroughly gone over in course. All problem sets and projects requires an integrated implementation of knowledge acquired in the course.

---
